

# Fair Housing

Fair Housing is more than memorizing the protected classes and doing the right thing. It's the law! Regardless of your position or experience, you'll gain practical knowledge on the intricacies of Fair Housing laws, learn which behaviors are prohibited and gain an understanding of the penalties. Protect your company and yourself from costly discrimination claims by learning how to play fair in every interaction you have with a current or prospective resident.

Don't miss this opportunity to learn from one of our most highly regarded speakers, **Elaine Swenson**. Elaine has over 27 years of experience in the field of property management and past attendees have rated her as "the very best speaker" and complimented her on being "knowledgeable, interesting, very engaging and very personable."
